

Adithya M P

AI/ML Engineer — Applied GenAI & Machine Learning

Bengaluru, India | +91-8431841045 | adityamp450@gmail.com | linkedin.com/in/aadithya-m-p | github.com/Aditya-MP | adityamp-portfolio.netlify.app

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience building applied GenAI systems (multi-agent orchestration, RAG, semantic search) and production ML pipelines (LangGraph, Vertex AI, SAM2, LayoutLM). Cut cloud inference costs by 20x via local NPU deployment and improved discovery accuracy by 35% through fine-tuned NLU and vector search. Proficient across the GCP AI stack, MLOps tooling (Kafka, Grafana), and Python/Java backend engineering. Seeking an AI/ML Engineer role to build applied, production-grade GenAI systems.

EDUCATION

CMR University

B.Tech. in Computer Science & Engineering (AI & ML) – CGPA: 8.00 / 10.00

Bengaluru, India

2022 – 2026

Govt. Polytechnic

Diploma in Mechanical Engineering – Aggregate: 60%

Bengaluru, India

2019 – 2022

TECHNICAL SKILLS

AI & GenAI: Generative AI APIs (Gemini, Llama), Multi-Agent Systems (LangGraph), RAG, Semantic Search

Machine Learning & Data: Scikit-Learn, Pandas, NumPy, Computer Vision (SAM2), Document AI (LayoutLM)

Languages & Cloud: Python, Java, SQL, GCP (Vertex AI, Cloud Functions), AWS S3, FastAPI, Git, Docker

Data & MLOps Tools: Relational Databases (MySQL, PostgreSQL/PostGIS), NoSQL (Firestore), Kafka, Grafana, PyTest

EXPERIENCE

Software Developer Intern

Jan 2026 – Jul 2026

TAP Academy

Bengaluru, India

- Developed data pipelines and backend analytics components using Python and Java, automating feature extraction workflows.
- Engineered relational database models in MySQL, optimizing queries to accelerate model data loading by **30%**.
- Collaborated with developers to integrate predictive data modules into user dashboards using React interfaces.

Data Center Operations Associate (Freelance)

Mar 2026 – Present

Vseek Ventures

Bengaluru, India

- Automated data pipelines using Python scripting, applying analytical techniques to monitor data execution flows.
- Configured real-time system monitoring views in **Grafana** and audited pipeline throughput via AWS CloudWatch.
- Troubleshoot data pipeline bottlenecks and resolved technical issues to ensure continuous delivery workflows.

PROJECTS

WorldBean AI | React, Cesium, FastAPI, PostGIS, SAM2, LayoutLM | [GitHub](#)

Aug 2026 – Present

- Architected a full-stack EUDR compliance platform (React + Cesium 3D globe, FastAPI + PostGIS) resolving coffee/cocoa farm plots from land records and satellite imagery.
- Integrated SAM2 for satellite change-detection segmentation and LayoutLM for land-record document parsing, automating plot geolocation against deforestation risk data.
- Deployed a dual-service architecture (Netlify frontend, Dockerized FastAPI on Hugging Face Spaces) generating EU-compliant Due Diligence Statements via Copernicus and Gemini document AI.

Salary Pilot Agent | LangGraph, Llama 3.1, AMD NPU, Kafka | [GitHub](#)

Feb 2026

- Architected a Python multi-agent system using LangGraph and Llama 3.1 to automate tax-optimized, ESG-aligned budgeting.
- Deployed local NPU inference to reduce cloud overhead by 20x, maintaining a sub-100ms request latency.
- Engineered event-driven queues via Apache Kafka to stream transaction feeds in real-time, verified via 95% PyTest coverage.

KalaKriti (KalaConnect) | GCP, Firebase, Dialogflow CX, Vertex AI, Flutter | [GitHub](#)

Sept 2025

- Built serverless GCP backend routines, using Vertex AI (Gemini Pro) to generate SEO marketing kits from image/voice.
- Orchestrated event-triggered Cloud Functions calling Speech-to-Text and Vision AI to process multi-modal metadata.
- Configured Dialogflow CX voice assistant NLU and Vertex AI Search, increasing discovery accuracy by 35%.

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Microsoft Azure Fundamentals (AZ-900) | Introduction to Large Language Models (IBM SkillsBuild)

Hackathons: Finalist – Innova Hackathon, Chapter 1 (WorldBean AI), Aug 2026 | National Runner-Up – Sandbox 1.0 Ideathon, IIT Bombay (Aug 2025) | Runner-Up – Ideathon 2025, CMR University

Ecosystem Roles: Finalist – Cardano Hackathon, Hack2skill (Nov 2025) | Technical Presenter – Google Cloud AI Day (Jul 2025)
